

Stem Cell Media

High quality tools for cellular research

Captivate Bio's classical media and supplements are designed to support the growth and maintenance of a variety of mammalian cells and cell lines. Classical media products available include a variety of DMEM, DMEM/F12, RPMI 1640, MCDB 131, and MEM media.

Ordering Information	Cat. No.	Size	List Price
DMEM/F12 Medium	DF1201	500 mL	\$45
DMEM/F12 Medium, with HEPES	DFHG01	500 mL	\$45
DMEM, High Glucose	DMEM01	500 mL	\$25
RPMI 1640 Medium	RPMI01	500 mL	\$45
MCDB 131 Medium	MCDB01	500 mL	\$55

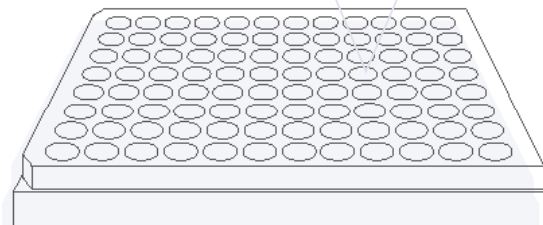

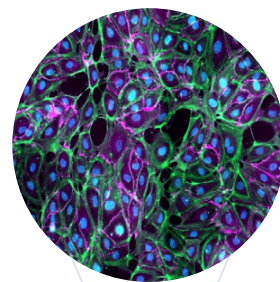

screenMATRIX

Find the best chemically-defined environment for any cell type

A new rapid, 96-well screening plate which mimics 96 different adhesion proteins including fibronectin, vitronectin, laminin, and collagen. Discover which biological ligands are responsible for cell adhesion, differentiation or changes in your cell phenotype.

Ordering Information	Cat. No.	Size	List Price
screenMATRIX™	S1001	5 x 96-well	\$600

Small Molecules

High quality tools for stem cell research

All of Captivate Bio's small molecules are rigorously tested as well as third-party validated to guarantee the highest purity and chemical structure consistency. Small molecules include A83-01, BIRB796, PDO325901, Chroman 1, and the new Captivate Bio CET Cocktail Kit.

Can't find what you need? Our custom services team is here to help. We will work with you to deliver reagents including small molecules, cytokines, and growth factors that meet your requirements, timeline, and budget. Contact us today for more information.

Human Platelet Lysate

Reduce variability in your cultures

Captivate Bio offers one of the largest portfolio's of human platelet lysate products which enable unparalleled cell growth for stem cells and are among one of the most cost effective and natural way of growing cells. HPL is currently available in research and clinical grades, as well as pathogen-inactivated and gamma irradiated formats.

Ordering Information	Cat. No.	Size
ELAREM™ Prime, RUO	PR11011	500 mL
PLTMax®, RUO	PLTMAX500R	500 mL
PLTGold®, RUO	PLTGOLD500R	500 mL

* RUO and GMP-grades and various pack sizes also available.

- Superior alternative to FBS
- Rapid and natural cell growth
- RUO- and GMP-grades
- FDA master files available
- Used in US, EU, and other clinical trials globally
